

## FEES & INSURANCE:

I am contracted with Blue Cross/Blue Shield to provide coverage for their members. Blue Cross/Blue Shield members are highly encouraged to contact the company to verify the details of their coverage. I will also verify coverage prior to being able to offer services. Although I do not participate in other insurance panels or belong to managed care networks, my services are typically covered as an out-of-network provider by most insurance companies. My policy is to collect fees at the time of service and to provide clients with receipts containing all of the necessary information to submit to their insurance companies for reimbursement. It is common for insurance companies to reimburse a percentage of what they consider as an allowable amount or fee. Typically, insurance providers reimburse 60%-90% of what they consider to be an allowable amount or fee. Some plans reimburse the same amount whether you see someone in their panel or not. It may not cost you more to go out of network or the difference may be slight. If you want to know more exact information, it is best for you to contact your insurance company. I accept cash, checks, credit cards, health savings, and flexible savings cards.
